Maternity and Infancy Work in Epsom

A child health conference was held in Epsom, July 27, 1927, under the supervision of the State Board of Health Division of Maternity, Infancy and Child Hygiene with the Women's Club cooperating. Miss Nellie Sheburne, Pres. of the club was chairman of the Baby Conference. A committee from the club did very efficient work in arranging and assisting at the conference. Forty-four children were given complete physical examinations by Dr. Clarence Butterfield of Concord, and Dr. Argne of Pittsfield. Since 1926 the following corrections of defects have been made:

Hernia, 2
Teeth, 2
Tonsils, 1
Genitalia, 2
Glands, 1
Spinal Curvature, 1
Rupture, 1

REPORT OF ANNIVERSARY COMMITTEE

Epsom celebrated its 200th anniversary by presenting a historical pageant at the Old McClary Homestead (made famous by its Revolutionary War history) August 31 and an entertainment in I. O. O. F. hall in the evening.

The pageant was written by one of our residents, Mrs. Mary E. Q. Philbrick, and presented under her direction, assisted by Mrs. W. H. Dunlap of Concord, as director, and Herbert W. Rainey in charge of music.

This was made possible through the splendid cooperation of the various committees and more than 250 of our citizens took the parts assigned them for the pageant.

The Financial Statement is as follows:

Received of town	\$472.24

This is to certify that I have examined the books and other financial records of the School Board of Epsom, N. H., of which this is a true summary for the fiscal year ending June 30, 1927, and find them correctly cast and properly vouched.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens:

I herewith submit my eighth annual report of the schools of Epsom for the year ending June 30, 1927.

There were maintained during the year seven schools for a school year of 36 weeks, with no change in the teaching force.

The total school enrollment was 93, (44 boys and 49 girls), with a daily average attendance of 94.13 per cent.

The schools were in session on an average of 348.14 half days.

Length of School Year

The minimum length of a standard school year shall be at least 36 weeks, 360 half-day sessions. Cities and many large towns provide schools for 38 or more weeks per year.

In order that our pupils may enjoy as nearly as possible equal school opportunities with those living in cities and larger towns, it behooves the school board to so arrange the terms that the schools shall be in session on as many half days as possible.

This may be accomplished by arranging the terms so that most of the holidays shall come in vacation. On some of the holidays, as Washington's Birthday, Columbus Day and Fast Day, the schools may be in session and exercises arranged to commemorate the day. Parents and citizens may well be sent special invitations to visit the schools upon these days.

Another plan is to contract the teachers for 360 days of service in 37 weeks. This plan allows for making up lost time. Either of these plans will add greater school value without increasing school cost.

If 360 sessions are paid for, wisdom and economy call for an administration where few if any sessions are lost.

Another important factor in school administration is the assignment of pupils to the different schools. The number of pupils and the number of grades per teacher call for serious consideration by the school authorities and citizens. It is clearly evident that when 25 or 30 pupils in 6 to 8 grades are assigned to one teacher, good school work cannot be accomplished. It is equally as evident that where too few pupils are assigned to a teacher the best results cannot be obtained.

In recent years roads and transportation have been so greatly improved that pupils may be assigned to schools where good conditions exist and this assignment make a financial saving for the district.

School Attendance

Many requests come from parents and guardians to excuse their children from attending school for reasons that cannot be considered as legal, such as want of shoes and other clothing, distance from school, a need to work in order to help support the family, and the over-age pupil who for truancy or dullness finds himself in one of the lower grades at the age of 15, making a plea that school work is not profitable for him.

The New Hampshire school attendance law is very simple. All children must attend a public or an approved private school every day that the school is in session from their eighth to sixteenth birthdays, or to their fourteenth birthday if they have then completed the eighth grade. There is no excuse except physical or mental incompetence. Neither poverty of parents nor isolation of the home may stand in the way. At least eight years of schooling is an inalienable right of New Hampshire children.

For thirty years this law has been unchanged and has been enforced. For this purpose, each district has its own truant officer. Commonly these men are vigilant and effective. The cities are particularly well served. In the small

towns often difficulties arise due to the fact that the truant officer and the negligent parent are neighbors or relatives and an official act is likely to be regarded as a personal one.

Health

An important factor in modern education is the care of the health of the pupils. A school nurse has been engaged for this purpose who regularly examines the pupils for defects of eye, ear, teeth, throat, respiratory organs, and for the causes of under-weight.

Dental clinics are held and defects of the teeth are recorded on a card which is carried home by the pupil. These examinations are free. The parent may employ the school dentist at a greatly reduced cost or their own dentist as they prefer.

All health cards are sent out as danger signals with no thought on the part of the school authorities of dictation, but with a desire to work with the parent to safeguard the health of the child.

Excellent work was done by the school nurse, Katherine O'Donnell, R. N.

A uniform and carefully graded course of study in health and health habits was taught by each teacher.

School Activities

The State Program of Studies for the Elementary School is well taught by the teachers.

The Junior High School Program in mathematics, English and history is now taught in the higher grades and the other branches of the Junior High Program will be introduced as soon as conditions permit.

Standardized tests have been given during the year in all the fundamentals.

Teachers' meetings have been well attended. At these meetings instructive and inspiring addresses were delivered.

The relation of teachers, superintendent and school board is cordial and all are working for the better education of the children.

Parents and citizens are invited to visit the schools frequently. In conclusion I express my appreciation for the cordial cooperation and assistance given to me.

Respectfully submitted,

HENRY S. ROBERTS.
